

I understand the FCC is considering an action that would potentially remove K-Love radio station from the air. K-Love provides a valuable service to Phoenix, Az listeners. There are many stations that provide music with a negative message and lots of negative influences to both young adults and children. K-Love provides wholesome Christian music and messages to a generation that very badly needs all the positive messages it can get. If K-Love were taken off the air this positive music and message could not be accessed by those wanting it. K-love encourages young and old alike to love the Lord and their fellow man and to serve their community in a positive way. Please keep this important message around for all to hear.
